# Unico Featured At Tropical Green Festival

CORAL GABLES, Fla. – Unico Inc. was one of 12 companies and the only HVAC product manufacturer invited to participate in Green Alternative Products Day as part of A Tropical Green Festival at the Coral Gables Farmers Market on Jan. 24. Eduardo Oyarce, sales manager (below), manned Unico's booth at the event, which was attended by more than 1,500 people. Sponsored by the city of Coral Gables, the Coral Gables Garden Club and The Villagers, a group that supports historic preservation efforts in Dade County, the event featured companies with innovative and sustainable products.

The Unico System is a small-duct, high-velocity central heating and air conditioning system manufactured by Unico Inc. Ideal for custom home, historic preservation and niche commercial applications, The Unico System takes less than one-fourth the space of a traditional HVAC system and can deliver up to 12 tons of air conditioning in the same space as a 3-ton traditional system. Quieter and less visible than other systems, The Unico System provides superior indoor comfort that is energy-efficient and environmentally friendly. For more information, visit www.unicosystem.com.
