

Ultraviolet (UV) Lights & Adapters

Features and Benefits

- Kills airborne or surface microorganism inside the duct like mold and bacteria.
- Easy maintenance, with quick and easy bulb replacement.
- Unico UV Adapter provides flexibility and the option to support leading brands of UV lights
- Our safety design means no exposure to high voltage or UV rays

System Advantages

- Purifies the air
- Reduces airborne particles that can irritate allergies and asthma
- Protects from outdoor contaminants and pollutants
- Unit produces NO ozone

The Unico System®

Small-Duct Central Heating & Air Conditioning

About UV Lights

The importance of Indoor Air Quality (IAQ) has never been greater. Tight construction can trap contaminants and keep air within the home. Additionally, viruses do not easily dissipate increasing the likelihood of them spreading throughout the conditioned environment.

The use of ultraviolet light in home and business HVAC applications has many benefits, including the ability to reduce airborne odors, toxic chemical vapors, germs, mold, and bacteria. Now with the Unico indoor air quality UV module, you can add this critical IAQ upgrade to your existing or new Unico System.

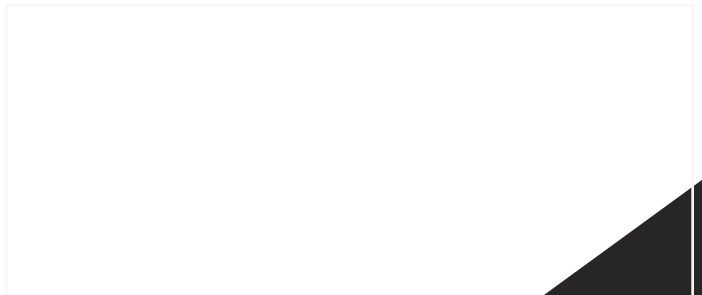

To provide complete flexibility to our valued distribution and contractor partners, we are pleased to offer two variants to meet your customer's needs.

The UVC1-09 is a cabinet or adapter that connects to the Unico Air Handler and provides the ability for a UV lights to be mounted into The Unico System®. This flexibility allows distributors and contractors compatibility options when pairing with a Unico System, as the adapter was designed to accommodate UV lights from leading manufacturers such as Honeywell, RGF, or Aerus. The second sku, the UVL1-09 is the complete system with the UV light source and the adapter shipping together within the same box.

When installed in forced air heating and cooling systems, the Unico Ultraviolet Lighting System coupled with high efficiency filters provide the maximum protection against air borne pathogens for your Unico System.
